

Documentation Lead (m/f/x)

Who We Are

Chain4Travel AG is a travel technology Start-up led by two proven entrepreneurs and founded in 2021 based in Baar, Switzerland. We aim to develop travel-related software solutions based on blockchain technology. Chain4Travel (C4T) is developing a consortium blockchain in collaboration with key industry players who will form the initial node operators. The C4T blockchain is based on Avalanche and maintains full EVM compatibility for smart contracts. Rather than Proof-of-Work, C4T uses a Byzantine Fault Tolerant (BFT) consensus mechanism. The core is developed using the GO language. The smart contracts running on C4T blockchain are developed by our core team using both Vyper and Solidity programming language.

What We Offer

- We offer a unique opportunity to create and shape processes in a Tech-Startup. As such, we invite you to take part in shaping our company
- We are a young and ambitious team lead by proven serial entrepreneurs that collaborates enthusiastically to create the foundation to create new travel experiences
- We work on cutting-edge technology and enjoy disrupting the travel industry with blockchain technology. Accordingly, we equip you with state-of-art working equipment
- While we want to welcome you to our unique headquarters in Düsseldorf, where we work in a distinctive atmosphere, we support mobile working, too
- On office days, we offer free breakfast, lunch, and drinks as well as fruits throughout the day
- To relax from work, we play table soccer, darts, or use the PlayStation 4 at our headquarters
- Part-time models are possible, and we support a job ticket

Who You Are

You like boiling down complex issues and systems to the most crucial information and acting as an interface between developers, product management, and external readers. You love jumping into new topics and learning everything about them. You work in a structured manner. You have an eye for details without losing the big picture. You like working independently but also together as a team. Candidates should have:

- You enjoy creating texts and capturing your readers
- Completed studies of computer science, informatics, or an equivalent apprenticeship
- Experience as a technical editor, ideally in the context of cross-functional teams including editors, engineers and product roles
- Fluent in English in speaking and writing, fluent in German is a bonus
- Analytical ability to abstract critical information from complex contexts, use computational thinking
- Flexibility and curiosity, and ability to communicate effectively
- Nice to have:
 - Knowledge of Jira, Confluence, Git, and Github and the markdown language
 - Familiarity with terms like blockchain, ledger, smart contract, wallet
 - Experience in the blockchain industry, Avalanche would be a great plus
 - Knowledge in and understanding of the decentralized web community
 - A passion to bring the Web3 vision of a decentralized web to the world

What You Would Do

As Documentation Lead, you are in charge of creating, maintaining, and publishing our technical documentation to our customers, partners, and the community. This includes documentation on our external interfaces, user frontends, and installation manuals. For gathering an understanding of our product, you will be closely working together with our developers and product management. Consequently, you will sort, select, analyze, and edit this information.

Your tasks include:

- Gathering and selecting all information in a self-responsible manner
- Creating comprehensible documentation of our software products
 - User manuals
 - Installation manuals
 - Interface descriptions
- Keeping our documentation up-to-date
 - Unifying terminology and optimizing the structure of our documentation
 - Creating documentation using the markdown language on Github
 - Maintaining the process of publishing the documentation on our website
 - Ensure that the documentation keeps up with our fast-paced development

How to Apply

If you would like to take part in the travel revolution, just send your CV and a short cover letter to jobs@chain4travel.com. We will get back to you as soon as possible!
